*Issun,
the celestial envoy*

天道太子一寸

There is a legend about a god that dates back a long, long time. The people knew this god as Ōkami.

Ōkami would fly through the fields like the wind, silently watching over the life that filled the verdant lands. The people revered Ōkami and held the god in the highest honor.

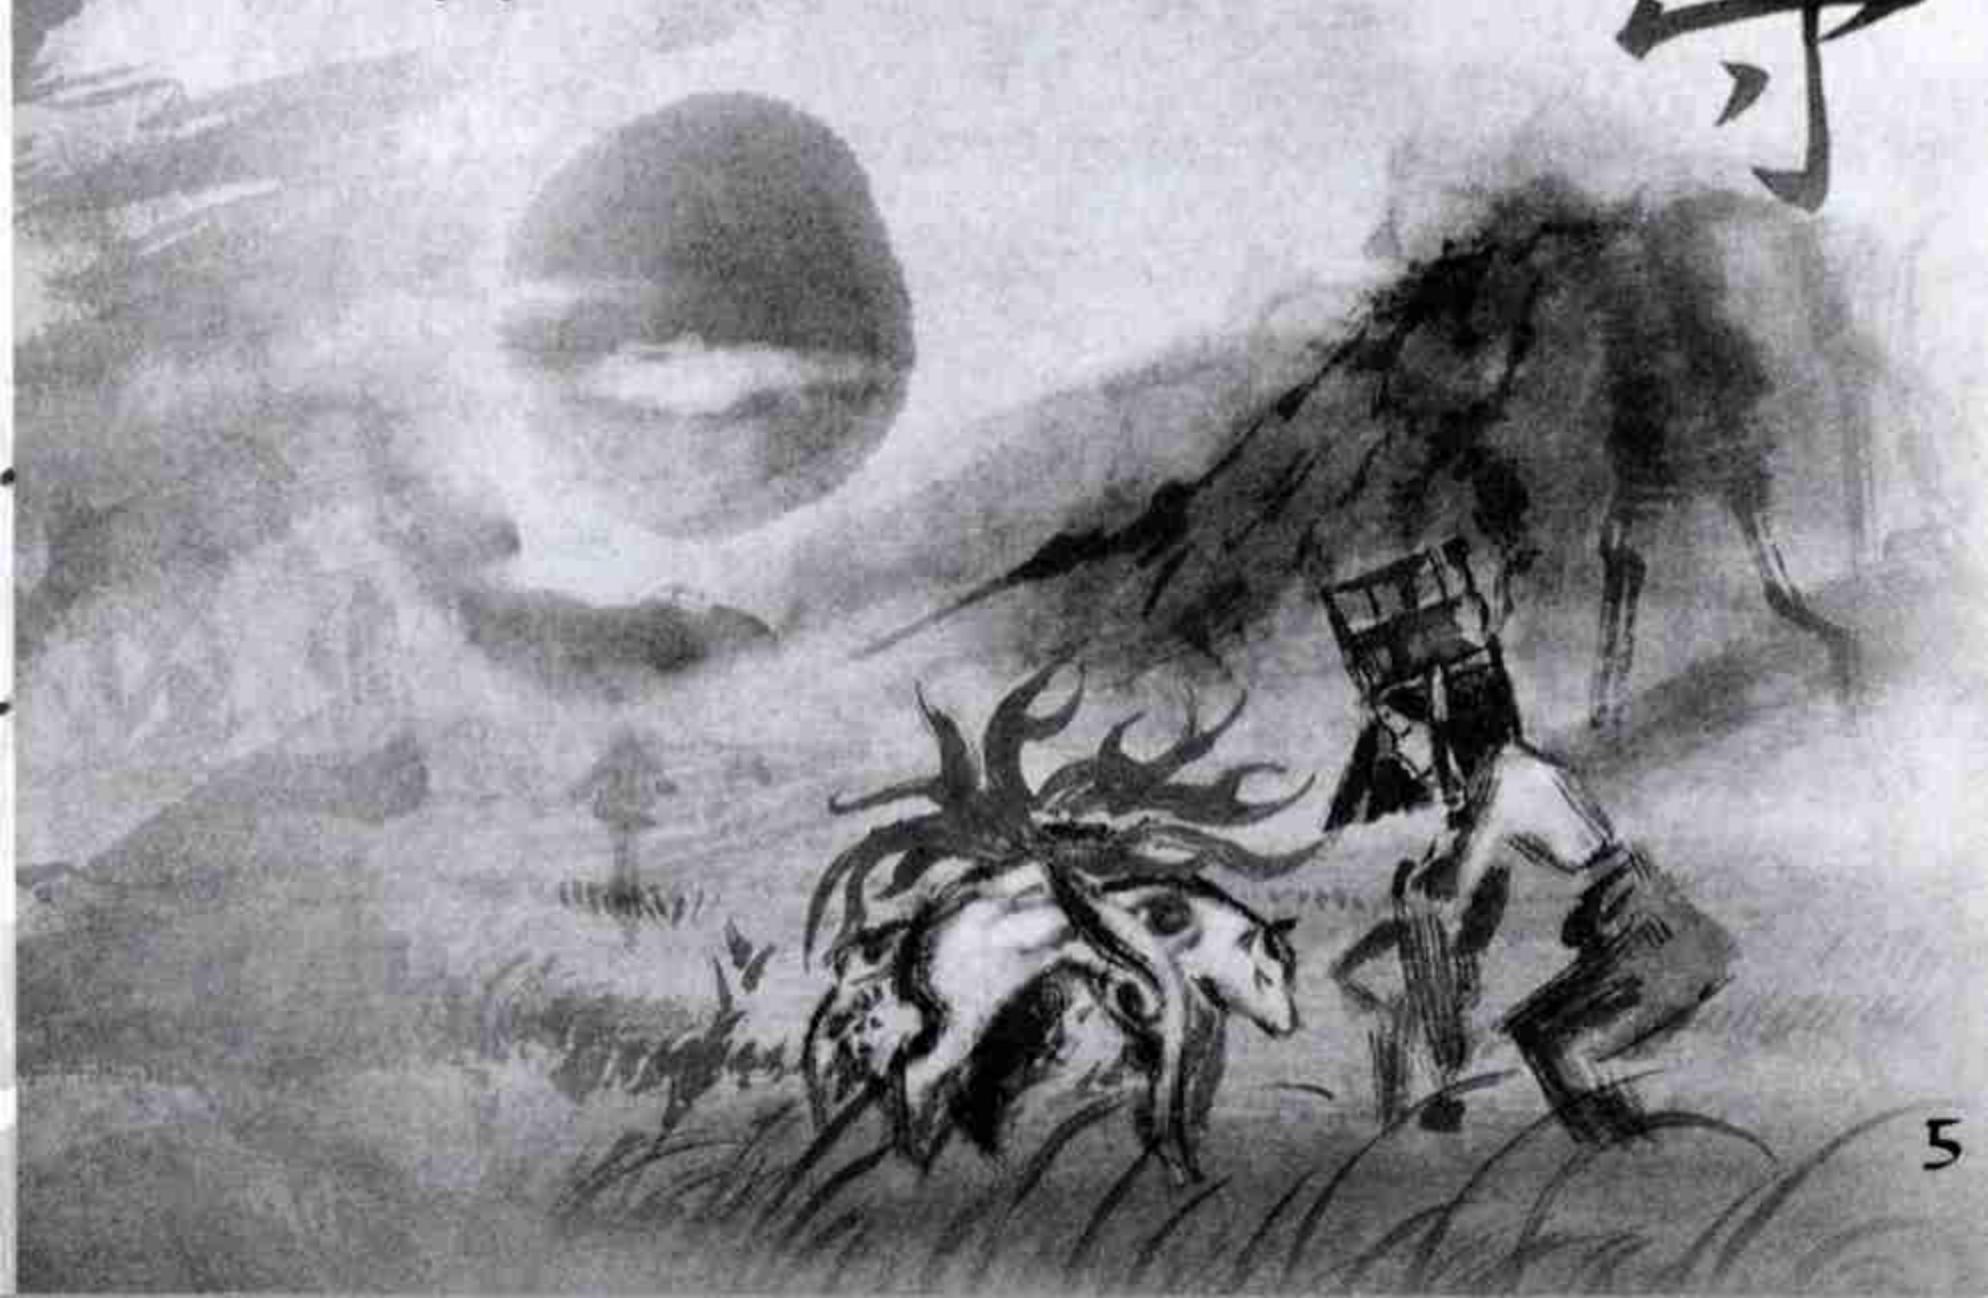

One fateful night, tragedy struck! The peace that blanketed the land under the warm protection of Ōkami was shattered.

Orochi, who had been sealed away since time long past, was resurrected. Orochi swallowed the world of the plants, animals and people – until finally he engulfed even the sun itself in total darkness.

Only Kamiki Village was spared that terrible fate by the grace of the wood sprite Sakuya who inhabited the sacred tree. Sakuya was distressed by the scale of the disaster and recalled the ancient covenant made between the land and a certain god.

She performed the revival ceremony, drawing in the spirit of the ancient god Amaterasu and breathing that life essence into the statue of Ōkami that stood in the village. So on this day, the light of hope returned to a dark, desperate land.

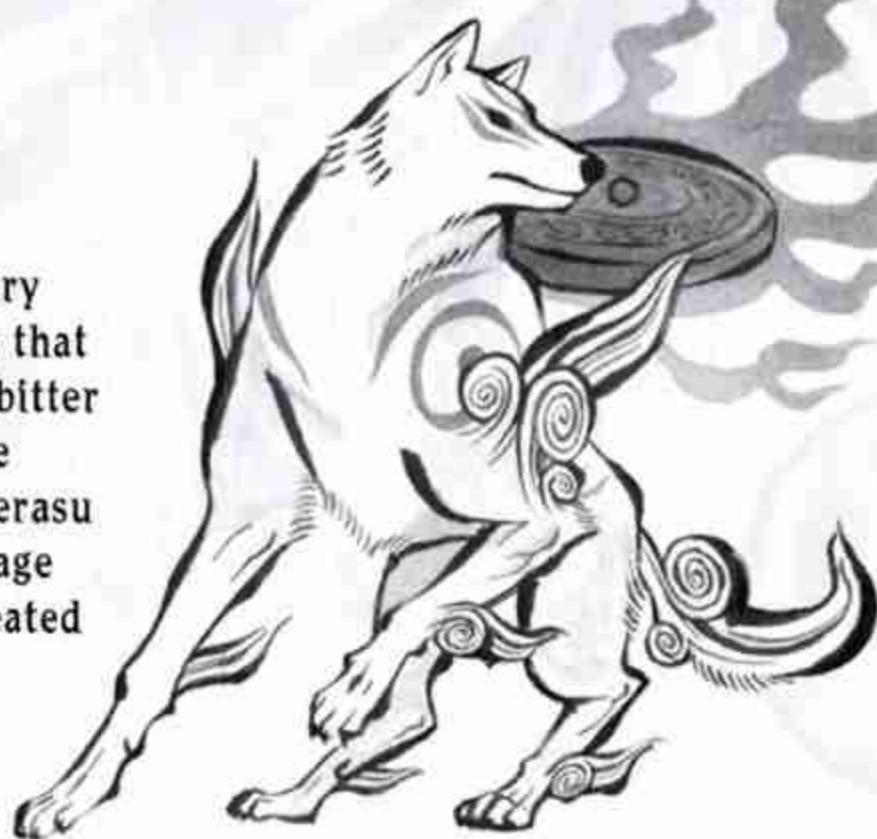

Amaterasu set out on a journey to fight the darkness and save all life from the tragedy that had befallen it.

characters

AMATERASU (You)

This powerful god has the power to command the Celestial Brush. A century ago, Amaterasu lost the physical body that the god had been inhabiting during a bitter struggle to seal away Orochi. With the help of the wood sprite Sakuya, Amaterasu inhabited the statue of an ancient village god and returned to the world. The heated battle against Orochi left Amaterasu without many powers held in times past, but Amaterasu will journey to recover those powers while saving the life of the land.

ISSUN

This tiny creature was taking a nap in Sakuya's shirt on his journey to master the principles of calligraphy. That journey took a detour when he decided that he liked Kamiki Village — he has resided there ever since. The villagers may consider him ill-mannered, but he is one of the top calligraphers in the land. He has taken the liberty of journeying with Amaterasu in order to steal the principles of the Celestial Brush and add them to his own repertoire.

THE WOOD SPRITE SAKUYA

This sprite inhabits the sacred Konohana tree in Kamiki Village. With her power, she was able to protect the village from the disaster that had befallen the rest of the land. She used all her remaining power to perform the ritual to bring Amaterasu back to the world.

MR. & MRS. ORANGE

Mr. Orange is the elder of Kamiki Village, which surrounds the sacred tree. He lives with his tender loving wife Mrs. Orange. Seeing the loss of the sacred tree's lovely blossoms, he is attempting to restore the tree using the ancient flower dance, the Konohana Shuffle. Mrs. Orange provides support by spending afternoons washing piles of laundry in the river and nights preparing her extra-delicious cherry cakes.

THE GREAT WARRIOR, SUSANO

He is descended from the legendary hero Nagi and never lets anyone forget it. He is supposed to be diligently honing his sword-fighting skills every day, but most people have only ever seen him sleeping. He has feelings for the lovely Kushi, who resides in the same village.

THE SAKE BREWER, KUSHI

She runs the only bar in all Kamiki Village. She is always out in the rice paddies working hard to grow the rice she uses in her brews. Word of her brewing abilities has spread all the way to the capital and people come from all around to sample her creations. She is innocent in the ways of the world, and her charming personality shows in the way she treats Amaterasu when the god is in animal form.

advice for the journey

Madame Fawn

Merchant

Onigiri Sensei,
Kozuka Style Dojo
Grand Master

ALL JOURNEYS BEGIN WITH A PATH

The land is quite large and you can wander across it. However, it is very easy to get lost, so stick to the roads in the beginning to keep your bearings. Roads always lead to some destination, so you will progress just fine in the beginning if you stick to them. Also, sometimes it is helpful to climb to a high vantage point and look out over the land to see where you want to go. In addition, if you see a village or a house, there is bound to be something interesting awaiting inside to whet your appetite for adventure!

IMPORTANT PLACES

MADAME FAWN'S HOUSE

By paying a little money, you can have your fortune told and find out where to go on the journey. Madame Fawn's House is a good place to go if you are ever stuck wondering what to do next.

MERCHANT'S

You can buy Tools to help you on your journey here. If there is ever a particularly difficult part of the journey, you can stock up on Tools to help you overcome the obstacle.

DOJO

By training at the Dojo, you can learn new techniques from the Grand Master that can help you defeat monsters and gain new powers to cross previously impassable areas.

THE MERCHANT GATHERING DEMON FANGS

There is a person who is looking to collect the Demon Fangs you find on your journey. If you take Demon Fangs to him, he will be so happy that he is bound to give you a reward based on the number of fangs you give him. You should collect as many Demon Fangs as possible for the time when you run into this collector.

DIVINE SPRINGS

There are mysterious holes within which lies who knows what. From these holes the water of Divine Springs bubbles up. When people draw near one of these Divine Springs, they always feel a need to toss money inside. Whatever amount of money you decide to put in is lost forever in the depths, but at some point in the future something good just might happen.

USE THE MAP

Many different details are written on the map.

- Location Name
- Save Points (Origin Mirrors) & Warp Points
- Items for use in a certain location
- Other areas connected to the current location

AS DIFFERENT AS NIGHT AND DAY

Time passes as you adventure around. The tasks that people carry out change with the time of day, so if you stop by the same location later, who knows what you might discover.

KEEP PEOPLE TALKING

If you are ever having trouble solving a problem on your journey, try talking to the different people you come across. One of them may hold the key. People are not always forthcoming with all of the information, and sometimes it takes a couple of conversations to draw the information you need out of someone. After talking enough, it may provide you with just the clue you needed to continue your adventure.

- When people have more to say, a special mark appears above their head. If you are ever having trouble solving something, try talking to people with these marks.

WHICH POWERS TO ENHANCE...

Increasing the health gauge avoids running out of health too quickly, increasing the Celestial Brush gauge lets you draw more, adding Astral Pouches gives you extra lives to work with and increasing the purse size lets you hold more money. With so many powers to choose from and the freedom to invest Praise Orbs in any ability, it might not be clear at first which power is better to enhance. For times when the decision is not as clear, you can never go wrong with taking a balanced approach to enhancing the different powers.

VISIT ORIGIN MIRRORS OFTEN!

Whenever you are ready to embark towards a new destination or when arriving in a new town, it is a good idea to find the Origin Mirror and save the game progress. As long as you do so, you can adventure into the new area without worry.

PAY ATTENTION TO ISSUN'S MOVEMENTS

Issun is wise in the ways of the world and can often present good advice for you on your journey. He is normally enveloped in green light, but when he spots something interesting, he changes to a yellow glow. If Issun ever changes color to yellow, it is always wise to approach him and talk to find out what he has discovered.

USE THE CELESTIAL BRUSH WHEN THE COLOR RUNS OUT OF AN ENEMY!

When attacking enemies, sometimes they will lose all of their color. This means they are momentarily defenseless against the power of the Celestial Brush. If you use the Celestial Brush on them at times like this, you will deal more damage than normal. You should take advantage of every opportunity when the enemy loses their color.

CHECK THE ARCHIVE!

Within the Archive Screen, there is a Log Book with a Journal containing important information gleaned from talking to people during the journey. If you are ever stuck at some point, check the Journal to see if there is an important clue about what to do next. In addition to the Journal, the Bestiary contains information on any enemies encountered. If you "Continue" after being defeated, the information on the enemy is still present in the Bestiary. Information pertaining to their weak spots will be highlighted in red, so check the Bestiary if you are having trouble defeating a monster.

KEEP THE ASTRAL POUCH FULL TO AVOID A GAME OVER!

If Amaterasu takes so much damage that the health gauge drops to zero, it will be game over. The only way to avoid instant game over is if Amaterasu's Astral Pouch is filled with food in which case all of the energy inside is converted into health, giving Amaterasu an extra chance. When you are about to set off for new territory, keep the Astral Pouch full just in case there is trouble.

ADVICE FOR BEATING TOUGH MONSTERS

When you just cannot seem to defeat a particular monster, one option is to buy an Exorcism Slip at a store. These slips do not come cheap, but they pack a punch and deliver a set amount of damage to an enemy making them a valuable Tool to have at your disposal. If your weapon's attack power does not seem strong enough, one option is to use Gold Dust. This powerful Tool will increase the attack power of a Divine Instrument one time. This Tool is perfect for occasions when you do not yet have access to a more powerful Divine Instrument but still need a boost in attack power.

LEARN NEW SKILLS AND CELESTIAL BRUSH TECHNIQUES

You can revisit previously impassable locations after learning new skills and Celestial Brush techniques. Many locations will be impossible to pass through the first time you see them because you do not yet have the proper skill or Celestial Brush technique to clear the obstacle. There is bound to be something important that could aid you on your journey if you go back to these locations and use your newfound knowledge.

mythology

AMATERASU

Amaterasu (alternately called Amaterasu Omikami) is a central figure in the native Japanese religion known as Shinto. Though deliberately written to be a genderless character in the game, Amaterasu is portrayed as a woman in the context of Shinto mythology.

She finds her origin as the sun goddess in a story concerning Izanagi (shortened to "Nagi" in the game) when he washes his face after having returned from the underworld on a quest to visit his recently deceased beloved, Izanami (shortened to "Nami" in the game).

According to this legend, the act of washing himself in a purification ritual gave birth to numerous deities, with Amaterasu being born from his left eye, Tsukuyomi (portrayed as Nagi's sacred sword in the game) from his right, and Susano (a storm-based deity) from his nose.

In her role as sun goddess, Amaterasu is associated with warmth and light and is said to have a strong link with the Japanese Imperial family of old.

FAIRY TALES & TRADITIONAL STORIES

The game draws much of its imagery and characterizations from established Japanese legends and stories. A wealth of further information on these tales can be accessed via the internet or at your local library or bookstore. Here, we attempt to compile a list of some of these legends referenced within the game.

URASHIMA TARO

This colorful character who appears in the North Ryoshima Coast is from a story that is often called the Japanese version of Rip Van Winkle thanks to its "man out of time" theme.

KAGUYA

The "Moonlight Beauty" and her relationship to the kindly Bamboo Cutter as portrayed in the game is very close to her fairy tale origins.

THE HAKKENSHI AND THE SATOMI HOUSE

This tale is woven over the course of 106 volumes, making it the longest novel in the pantheon of classical Japanese literature. In the novel, the Hakkenshi (Canine Warriors) are the human incarnations of eight spiritual sons born to Princess Fuse of the Satomi House. They are associated with dogs due to the fact that their spiritual father is said to be a dog spirit. As portrayed in the game, they are the embodiment of the eight virtues of Confucianism.

SHITAKIRI SUZUME

This rather frightening tale tells of a horrible old woman who cut the tongue from the mouth of a singing sparrow.

ISSUN BOUSHI

This tale concerns a tiny adventurer whose name should sound familiar. Also appearing in this tale is the size-altering "Lucky Mallet" that shows up in the game.

OF RABBITS, MOONS, AND RICE PASTE

Some of the imagery portrayed in the game, while being very familiar to the Japanese audience, may be rather confusing to Western audiences with a differing cultural background.

Perhaps the most striking of these may be the scene in which the god Yomigami makes its auspicious debut. While Americans have a tendency to see a human face on the surface of the moon, the Japanese see the distinct image of a rabbit. What's more, this rabbit is not merely standing still. It is pounding rice into the delectable paste known as "mochi." The mochi pounding process generally involves two people — one to pound the mass of rice into a paste with a wooden mallet, and the other to turn and knead the lump in between strikes. This helps to explain Amaterasu's paw gestures in this scene.
